The International Conference on Smart Systems and Power Management (IC2SPM), organized and technically co-sponsored by IEEE, IEEE Lebanon Section and IEE Joint Chapter IE/PE/CAS/PEL Lebanon, will be hosted Hybrid (in person and Online) by the Lebanese International University in Lebanon.

IC2SPM is an international forum for engineers, scientists, and researchers to present their state-of-the-art work in smart systems and power management. It also provides engineers with an opportunity to interact and share their experiences in industry and technology applications. The conference will run for three days. Submitted papers will be peer reviewed. Accepted and presented papers will be submitted for potential inclusion to IEEEExplore. Papers are solicited in, but not limited to, the following topics:

- Analog circuit design
- Digital signal processing
- Smart Grid
- Low power systems
- Reconfigurable systems
- Biomedical circuits and systems
- Power management
- Memristor systems
- AI and Neural Networks circuits
- IoT and IoET
- Power Electronics
- Control and energy management
- CAD tools
- Energy Conversion
- Energy management systems
- FPGA
- Control Systems
- Renewable Energy Systems
- Embedded Systems
- Power converters
- Wireless transfer of power
- Emerging technology
- Smart Power Systems
- Computer Applications

Paper Submission

Authors are invited to submit papers in pdf using the IEEE format. Paper template could be downloaded from the following website:

https://www.ieee.org/conferences_events/conferences/publishing/templates.html

Electronic submission of papers should be done via EDAS: <https://edas.info/N29840>

Questions regarding submission should be directed to akassem@ndu.edu.lb

Accepted and presented papers for authors who complete registration will be submitted for inclusion to IEEE Xplore.

Review Process

The evaluation of submitted papers is based on the importance and usefulness of the research topic. Technical merits, novelty of the approach, soundness of results, and clarity of presentation are also considered as factors of the evaluation process. Each paper will be fully reviewed by a minimum of two specialized reviewers.

Track Chairs:

Control Systems, Instrumentation, and Robotics: **Naseem Daher and Flavia Khatounian**

Computer Systems and Applications: **Rony Darazi and Ismail Alsayad**

Biomedical and Bio-informatics: **Mohamad Ayache, Roy Abi-Zeid Daou and Mohamd Abou Ali**

Power Electronics, Industrial Electronics: **Hadi Kanaan and Chady El Moucary**

Power Energy, Power Managements: **Nazih Moubayed and Mohamad Arnaout**

Circuits and Systems: **Adnan Harb and Mostapha Hamad**

IoT and HW/SW System Design of Everything: **Jack Demerjian and Jacques Bou Abdo**

Important Dates:

Full Paper Submission : July 31, 2022
