Open RTL-to-GDSII Flow Standards Workshop

(ORFSW 2025)

Marrakech, Morocco

In conjunction with

the 32nd IEEE International Conference on  
Electronics, Circuits and Systems  
(ICECS 2025)

### About the Workshop

ORFSW 2025 will gather researchers, practitioners, and industry experts to discuss emerging needs and opportunities for open, interoperable standards across RTL-to-GDSII design flows.

The workshop aims to identify priority areas such as intermediate representations, constraint and timing formats, exchange specifications, and tool interoperability APIs, while fostering collaboration between academia, industry, and open-source communities.

17 November 2025

Kenzi Rose Garden,  
Marrakech,  
Morocco.
